HELPING YOUR PROJECTS SEE THE LIGHT

WE'RE PLEASED TO INTRODUCE THE NEW PROFESSIONAL AREA ON OUR WEBSITE, AN INITIATIVE DESIGNED ESPECIALLY FOR ARCHITECTS, INTERIOR AND LIGHTING DESIGNERS. THERE YOU'LL FIND EVERYTHING YOU NEED TO TAKE YOUR PROJECTS TO THE NEXT LEVEL:

[01] WE ACCOMPANY YOU EVERY STEP OF THE WAY

[02] REQUEST A QUOTE

[03] TRY OUR LIGHTING CALCULATION SERVICE

[04] DOWNLOAD IMAGES AND MATERIAL

[05] ARRANGE AN APPOINTMENT TO VISIT OUR SHOWROOMS

[06] REQUEST SAMPLES OF OUR FINISHES

ENTER WWW.MARSET.COM/USA/PROFESSIONAL
AND LET YOURSELF BE INSPIRED.

Come discover Marset's Brooklyn showroom

Find our lighting collections in a space designed
to inspire creativity.

202 N. 10th Street BK, NY 11211 (Bedford L Stop)

9:30am – 5pm Monday – Friday

Request a Tour: marsetusa@marset.com | 646.727.4250

Warranty

At Marset, our luminaires not only provide the light you need but also create spaces, moments and emotions. Each design is made to last, with a quality that reflects our passion for detail and sustainability. We're confident in what we do, so we offer a 5-year warranty on all our products - because trust isn't imposed; it's steadily built, project by project, light by light.

Applicable conditions: <https://www.marset.com/usa/warranty>

⌚ Need it urgently?

We've designed a Quick Shipping program to offer you greater flexibility on selected items.

- Designs featuring this icon (⌚) will be ready in just three days.
- You can request up to 3 units per order.
- We recommend placing separate orders for Quick Shipping items for more efficient delivery.

Standard shipping conditions and minimums apply.
See the full list of Quick Shipping items on page 250.

Ambrosia Pro, Ciszak Dalmaz

This collection has been extended with a version designed specifically for workspaces that require more controlled lighting. It includes a cell structure with independent lenses that project more directional lighting.

It is available in a horizontal suspension version in three finishes: matt gold, aluminium, black - while the structure that fixes it to the ceiling is always in black.

Babila demonstrates that, when it comes to a design, the material can be as important as the shape. This outdoor wall sconce is of polished stainless steel, a circular object that produces a panoramic effect, reflecting its surroundings. It is not

designed to be an architectural element, but rather a simple and beautiful design that draws attention, whether on or off, as it allows us to catch a glimpse of the daily life occurring around it.

The Bicoca is born with the optimism of brightening life and accompanying the good times, wherever you go. This colorful, lightweight portable lamp projects an intimate light that adds warmth to all your personal spaces.

Made of polycarbonate, Bicoca begins with an overlay of basic geometric figures, with a tiltable shade to direct the light. Two accessories increase the applicability and versatility of the lamp.

At first glance, the Bohemia appears to be made of blown glass. However, the lamp's large size ruled out that material. Instead, the designer settled on polycarbonate to create an exciting, organic, translucent profile that integrates two volumes into

a single shape. The design allows for a large shade in different colors with a white interior for pristine reflection.

A technologically innovative design that brings back the sense of touch. Moving the Bolita dims or boosts the light, an interplay that captivates with its beautiful visual effect. Bolita seeks out that user interaction.

The idea of Florian and Sebastian at the kaschkasch studio was to design a lamp in which the dimming process was mechanical and not electronic.

The beauty exuded by the Cala stems from its simple, synthetic and essential form: a shade that embraces the light without containing it, letting it escape to yield very warm lighting.

With a structure made of oak or black lacquered metal, the Cala is an iconic Marset design defined by that most valuable of pairings: form and function.

Caramel collection surprises with its material beauty, as though it were an illuminated sculpture. This wall lamp by Joan Gaspar uses glass of a clearly decorative nature to create a circular form that envelops the light. A design that gives full prominence to

the aesthetics of this hard, shiny material: when illuminated, Caramel is surrounded by a soft halo of light, and when turned off, it creates a graphic play on the wall. Caramel emits diffused, soft, and warm reflecting light.

Cluster, Accessory

The cluster gives you absolute freedom to design the light you desire. With it, you can illuminate large spaces and create different compositions.

Take into account the total power in watts, the power of the driver, and the wire entry points of the canopy. The total wattage of the selected lamps cannot exceed the max wattage of the canopy's driver. Therefore, you must choose your canopy/driver by the power required. Finally, the number of lamps installed in a single canopy cannot exceed the number of wire entry points of that canopy. Customize your space with our Dipping Light cluster configurator at configurator.marset.com/dipping-light

Quick ship item. Ships within 3 days. See *Quick Ship* on page 254.

Materials
Body: Metal
Diffuser: Brilliant white blown glass
globe with layered paint

Dimmable: No

Product type: Table
Light Source: LED SMD 700mA 2.2W 2700K CRI80 243lm
Luminaire: 120 - 240 VAC 4W 123lm
Weight: Net 2 lb – Gross 3.3 lb
Package: 13.7 x 13.7 x 7" – 3.3 lb Vol – 0.38 ft³

Cable length: 6.6 ft
Wire installation: Plug-in
Cord color: Black
Switch location: In-line

eye-catching design piece for a shelf, bedside, or table. The various layers of paint draw concentric circles and capture the light, moderating its intensity. The paint becomes the shade, colouring and texturizing the light.

The cluster is a system that allows several pendant lamps to be connected to a single power point. It provides complete freedom to create with light, illuminate large spaces, or design compositions with multiple pendant lamps.

See the available clusters on pages 59 and 60.
Customize your space with our Dipping Light cluster configurator at: configurator.marset.com/dipping-light

A620-086

Using a rotomolding technique allowed the designer, Joan Gaspar, to design a fixture with vastly different interiors and exteriors: its outside recalls the texture of a stone, giving off a perception of great weight, emphasized by its volume. In the

spacious interior you'll find a smooth, white space perfect for the reflection of light. Djembé is a lamp designed for use in public spaces that seeks to bring beauty and an unbeatable quality of light.

Architecture, lines and distinctiveness. A bollard light that reveals its empty interior. Domus hides its light, refusing to reveal where it comes from, and projects a subtle angle of illumination. The beauty of this new bollard lies in how its form plays with

and defines its light. It can be installed individually but takes on a sculptural feel in combinations of two or three units, the beam of light spreading in different directions and achieving greater breadth.

Charismatic, lightweight and compact, the new FollowMe in a glossy ivory-white finish incorporates technological details: three colour temperatures with different light tones; an on/off button that also acts as a progressive dimmer to adjust light

intensity; a longer-lasting battery; and, in addition to the USB-C cable, it offers an individual or multiple charging base as an accessory for recharging one or several units at the same time.

Drawing thin beams of light in a space with each one of them pointing in any direction. This is why we have created Fris, a multi-purpose lighting system, available in a wall/ceiling or pendant version, which allows you to combine several units in different sizes and positions, each one aiming its own beam of light. What makes it

unique is that the glass not only protects the light, but also provides a mechanical function, suspending the whole system and allowing the lamp to rotate and the light to be steered in a certain direction. There is also a more technical Pro version where the light is distributed in cells with independent lenses, achieving a UGR of under 19.

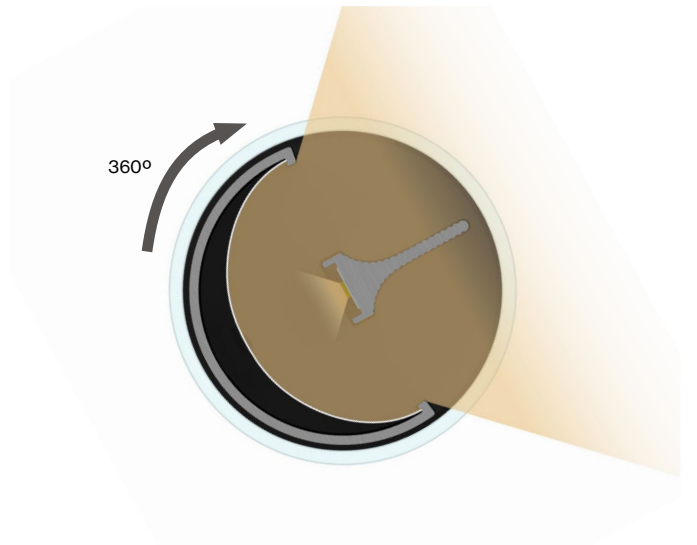

Fris

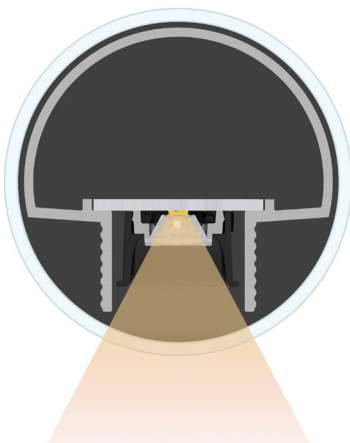

- Diffuse decorative light.
- LED 2700K and 3000K CRI90
- 24V product, can be connected to each other.
 - Max. 5 Fris 80
 - Max. 3 Fris 155
 - Max. 2 Fris 215
- Power supply not included, order separately.

Fris Pro

- Direct light for tasks requiring higher luminance and increased glare control.
- LED 3000K CRI90 (4000K available upon request).
- Power supply not included, order separately.
They cannot be connected to each other.
- LED beam angle: 55°
(30° and 65° available upon request)
- Tunable White 2700K 4000K version (available upon request).

This system makes it possible to compose light structures and to join a set of lamps by means of different assembly and hanging accessories. In the pendant version, each Fris unit is supported by a strap, so that several can be placed horizontally, in line, one on top of the other, or perpendicularly, creating intersections of light. They can also function separately as an individual lamp. The other version can be fixed to the ceiling or wall.

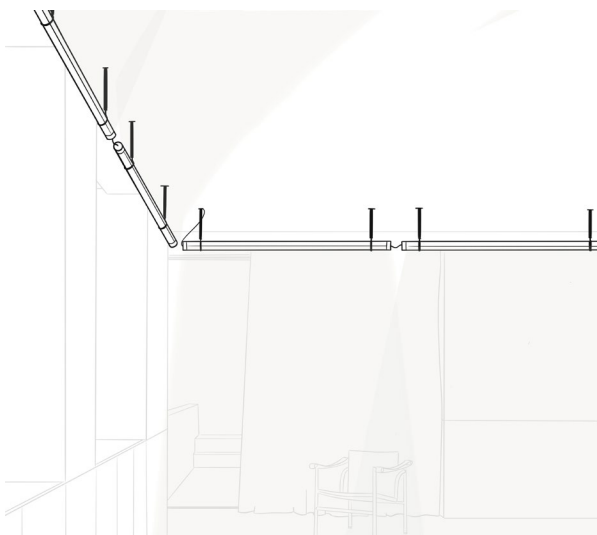

Fris offers a very versatile and functional design for precise lighting of any type of project. An ingenious system that boldly tackles a previously unresolved issue: to have a set of lamps where each one directs the light individually.

Funiculí, Lluís Porqueras

Funiculí is a revamped edition of a lamp originally designed in 1979. Lluís Porqueras always sought an absolute simplicity in his designs, stripping everything superfluous to leave only the essence of the simple, useful object.

Using the same double-clip mechanism of the original, this scaled-down model allows easy height adjustment and 360 degree shade rotation to fit the needs of any room or user.

A641-417

Geometry, balance and colour. A table lamp that challenges traditional rigidity and looks like a sculpture. Its design, made of steel, is a combination of geometries in

balance that interact harmoniously with each other. Its varied palette of colours allows you to create versions that range from subdued to incredibly expressive.

The LED-Ginger collection is notable for its great simplicity of form, its lightweight appearance and reflected direct light. A design for any type of project.

Available in two very different materials, wood or metal, it provides a warm glow with no glare, illuminating just the areas that need it.

LED-Ginger Outdoor, Joan Gaspar

The LED-Ginger collection is moving outdoors, with numerous sizes of wall sconce and bollard as well as a large-scale lamppost style light. This outdoor collection also

introduces a unique new rust brown finish, with a deep, warm glow, alongside the standard black-white metal finish familiar to the indoor version.

Konoha is a simple, discreet wall lamp with a shade over a directed spotlight that turns through 330°. The shade, like a hat, covers the spotlight, allowing the light to be directed upwards, bounce off the inside and project a beam of soft light, creating

warm ambient lighting. If instead the spotlight is focused downwards, it projects a beam of direct light, turning the fixture into a reading lamp.

Volume, solidity, and legacy. Lauro is the reissue of an iconic lamp made of steel and methacrylate, first launched in 1973. Its structure and materials connect us with the emotional language of the past.

Its shade allows the light to be directed by rotating it and adjusting its height along the structure. This luminaire is striking in its presence, a true example of how good design endures over time.

Its ergonomic design beckons you to move it in any direction, up to 360º, and its use is very intuitive. When opened, it turns on automatically; when closed, it turns off and hides away in the wall, like camouflage. It's so versatile it can be installed vertically

or horizontally, adapting to the needs of your space. Now we present a new surface edition, just as functional but more compact. The switch is integrated in the base, maximum ergonomic design, with absolute flexibility to move it in any direction.

The beauty of the Mercer stems not only from its essential shape, but also from how its materials blend together. The transparent blown glass structure surrounds the textile shade, which seems to float, conveying a sense of airiness and sophistication.

A89-506	Mercer C	-	Glass	USD \$ 930

The Milana is a sleek, versatile form with an almost imperceptible point of light. The base lamp offers an impeccable downward-directed light, but when a shade

is added, the light escapes upward, illuminating the lamp itself. An additional counterweight version gives the user complete control over the light.

The cluster is a system that allows several pendant lamps to be connected to a single power point. It provides complete freedom to create with light,

illuminate large spaces, or design compositions with multiple pendant lamps. See the available Clusters on pages 59 and 60.

Plaff-on!, Joan Gaspar

A good design is one that endures. So it is with Plaff-on!, a lamp that has been illuminating walls and ceilings for almost ten years. Its hand-blown white glass diffuser appears to float, detaching from the ceiling and the circumference that

surrounds it, and its light filters upward to create a luminous halo. Indoors, outdoors, with or without signage, the Plaff-on! now offers multiple options in one lamp that can now conquer the outdoors as well, now with a new finishing in rust brown.

Pleat Box, Xavier Mañosa & Mashallah

The idea behind the Pleat Box is a sophisticated combination between a digitally designed crease in a piece of cloth and a silhouette that is applied to a ceramic base. The alchemy of the craft process leaves unpredictable traces, small marks in the metal glaze, tiny cracks in the polish... little flaws that mark the unique personality of every lamp.

The fluidity of its movements and its integrated LED technology make the Polo a light source with a great precision and versatility.

The Polo comes with a diffuser made from injected aluminum and a rotary switch located at the top of the shade.

A large pendant or ceiling lamp that accentuates material rather than form. Its large size is in keeping with its function, since it's been designed to illuminate large spaces with considerably high ceilings and contemporary architectural projects requiring

a great deal of light. Switched off it's a forceful object with a strong presence; switched on it manages to make the material less dense and its design weightless.

Wall light for indoor and outdoor use, with a pressed glass diffuser. Its wavy shade covers the light, softens it, and creates an inviting atmosphere. Now, Roc evolves to provide even more light and expands its collection with two new sizes and a white

finish. All versions include an accessory that acts as a filter to reduce glare and screen the light. Roc resembles a shining block of ice, with an irregular texture that begs you to touch it.

Ingenious, minimal and decisive, this is the Sips portable lamp. An understated, timeless design with a very clear purpose: to create a distinctive, intimate lighted space, even outdoors.

With a small opaque shade, the Sips illuminates the table directly but without dazzling or overpowering the space.

The striking, industrial shapes in the Soho collection are reminiscent of the lamps that were traditionally used in markets and taverns, but they contrast through the use of thoroughly contemporary materials and textures.

It is made from rotation-molded polyethylene, a technique that allows us to offer it in different sizes.

Tam Tam, Fabien Dumas

The Tam Tam is a festive and versatile collection that offers several options to add color and originality to all types of interior design projects. The idea is to be able to aim the light in any direction, making this fixture perfect for long or narrow spaces.

This year, the collection is updated with new colors and a semi-matt finish on all models.

The W, PerezOchando

Unfold the light or fold it. The new design of Estudio Perez Ochando proposes a lamp of large format, flexible, thought to adapt to the different necessities of lighting big spaces.

A large black vertical structure is the main shaft from which a number of rods emerge; some can be moved upwards to expand the light and others downwards to focus it.

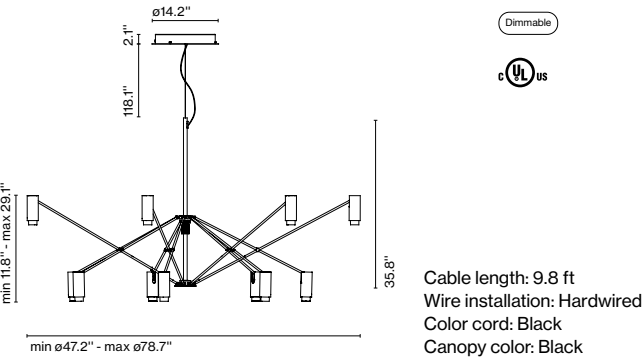

The W

Dimmer

Dimmer on the unit.

Dimmable

Product which can be dimmed.

Quick ship item. Ships within 3 days.
See *Quick Ship* on page 254.

Oversized item. Special freight policy applies.
See *Freight Exceptions* on page 254.

Technical note

The watts shown on the pricelist are the actual watts of the luminaire (including both LED and driver); otherwise, the watts are expressly shown as being for the light source. Similarly, the lumens may be for the luminaire or light source, as shown on the pricelist. For more information, you can find lighting data on our website.

Prices

- a. All prices are in USD, excluding Canadian MAP.
 - b. Product prices do not include shipping charges, assembly, installation, or any applicable taxes.
- Orders**
- a. Purchase orders must be sent to marsetusa@marset.com.
 - b. Purchase orders are only accepted via email. Handwritten, faxed or telephone orders are not accepted.
 - c. All purchase orders must contain Marset item codes, a description, pricing, valid billing and shipping addresses with contact names and phone numbers of contacts. Marset reserves the right to reject any purchase orders with insufficient information.
 - d. Order confirmations are provided within 24-48 hours of PO receipt.
 - e. All orders are on prepayment terms, unless credit terms have been approved in writing prior to PO submission.
 - f. Orders are not placed into production until payment is made/terms have been agreed to.
 - g. Estimated Shipping Dates (ESDs) are only provided once an order enters production.
 - h. Submitted orders will be considered definitive and Marset reserves the right to deny any changes not made within 48 hours of receipt of the Order Confirmation.
 - i. Information, pricing, and freight amounts on Marset Order Confirmations and/or Proforma Invoice supersede any previous quotes.
 - j. Orders over \$5,000 or containing ten (10) or more of any single item may be considered Project/Contract Orders, and may be treated as distinct from a normal order.
 - k. In the event of order cancellation after payment, a credit memo will be issued.
 - i. At Marset's discretion a minimum restocking fee of 20% of the net order value, excluding shipping charges, may be applied to any credit.
 - ii. Marset does not issue refunds except in cases approved in writing by the General Manager.
 - l. Marset reserves the right to reject or cancel an order for any reason.

Shipping Policy

- a. Shipping Origin: Barcelona, Spain
- b. Marset USD ships product directly from our factory in Barcelona Spain to the U.S. and Canada only.
- c. Orders are typically shipped by air with FedEx and have travel times of 2 days.
- d. Marset reserves the right to reject shipping requests to any locations not within the U.S. or Canada.
- e. Marset reserves the right to only allow shipments to the country in which the purchasing entity is registered.
- f. Marset orders ship on Marset accounts, and Marset cannot accommodate ex-works or third-party pickup from factory.
- g. Standard freight charges are in USD and listed in the table below.

Quotes

- a. Please note that all quote requests are handled by the sales rep for the territory where the request originates, except as otherwise noted in writing by Marset.

Lead Times

- a. General lead time: 1-5 weeks, depending on stock.
- b. Project lead time: 4-8 weeks. Exceptions may apply.

Shipping Policy

- a. Shipping Origin: Barcelona, Spain
- b. Marset ships product directly from our factory in Barcelona Spain to the U.S. and Canada only.
- c. Orders are typically shipped by air with FedEx and have travel times of 2 days.
- d. Marset reserves the right to reject shipping requests to any locations not within the U.S. or Canada.
- e. Marset reserves the right to only allow shipments to the country in which the purchasing entity is registered.
- f. Marset orders ship on Marset accounts, and Marset cannot accommodate ex-works or third-party pickup from factory.
- g. Orders/goods unable to be delivered due to client/site restrictions and/or the inability of the recipient of the order/goods to coordinate with the courier may incur storage fees as calculated by the courier. These fees will be billed to the original purchaser of the affected order/goods.
- h. Standard freight charges are in USD and listed in the table below.

PO net value USD	Freight Charge for Contiguous US and Canada
≤ \$1,500	\$75
> \$1,500 and ≤ \$4,999	\$150
> \$5,000 - \$7,499	\$375
> \$7,500 - \$9,999	\$625
> \$10,000 - \$12,499	\$875
> \$12,500 - \$14,999	\$1,000
> \$15,000+	Free (freight allowed via ocean)

Freight Exceptions

- a. Oversized items
 - i. Standard freight charges apply to all Marset products with the exception of oversized products as indicated in the pricelist. These include but are not limited to: Soho 112, Bohemia, Djembe 100.38, Djembe C100.38, Ginger XL 42, Jaima 71, Jaima P207 and P307 floor lamps, Ginger 60/298, and all Ringo models.
 - ii. Orders containing 1-3 oversized items will incur an additional flat fee of \$250 per oversized item, in addition to the standard shipping charges outlined in the table under section five above.
 - iii. For orders containing more than three oversized items, or containing a mix of oversized and standard items, Marset reserves the right to quote freight separately. These shipments may be made via air or ocean depending on logistical necessity and/or client preference.
- b. Special Discounts
 - i. Standard freight charges do not apply to orders with special discounts. Any specially discounted orders may have the freight charge assessed separately.

Quick Ship

- a. Items marked as Quick Ship have a maintained stock level and will generally be available to ship within 1 week.
- b. An order can contain no more than three units of any Quick Ship SKU, and these items cannot be combined with non-quick-ship items on the same PO.

Goods Return

- a. Subject to official authorization and approval in writing from Marset:
 - i. Uninstalled product in perfect condition and in its original packaging may be returned within 15 days of receipt.
 - ii. Returned goods must be labelled with the reference from the return authorization.
- b. Authorized returns must be shipped within two weeks of receiving the authorization.
- c. Returned product must be shipped prepaid. Marset will reject any shipment where fees, taxes or duties are owing upon delivery.
- d. Once the product has been received, inspected, and found to meet all stipulated conditions, a credit note of up to 80% of the invoiced amount excluding taxes, freight, or any additional fees/surcharges, will be issued within 7 days.
 - i. If the returned product is not received by Marset, no credit will be issued.
 - ii. Credit notes can be applied toward future purchases or open invoices.
- e. Marset reserves the right to reject any return request for any reason.
- f. The following conditions render an order final sale:
 - i. Oversized items
 - ii. Net value above \$5,000 USD
 - iii. 8+ pieces of the same item
 - iv. Custom product
 - v. Discontinued product manufactured as a written exception

Damaged products

- a. Within 48 hours of delivery:
 - i. Clients or representatives of clients (warehouse staff, jobsite receivers, homeowners and any others who may be signing for delivered goods on behalf of the purchaser) are required to inspect all packaging and goods for damage and/or missing product.
- b. If a delivered shipment has obvious damage to product packaging and/or there is reasonable cause to believe the product itself is damaged, we encourage clients to make a claim with the delivery driver at the time of delivery.
- c. For product found to be damaged after receipt, a claim should be made with Marset directly.

Making a Claim for Damaged or Missing Product

- a. Without exception and including product delivered to jobsites or warehouses or any other location, all claims must include clear, in-focus photographs showing:
 - i. Each damaged product
 - ii. Details of damage
 - iii. Each piece of related delivered packaging
- 1. Photographs of packaging must show:
- 2. Manufacturers label with product name and code number
- 3. Courier's label with visible ship-to address and tracking
- b. Marset may also require an image of the product(s) quality control "OK TEST" sticker.
- c. Claim requests must be sent to marsetusa@marset.com and have included/ attached:
 - i. Any related PO number(s)
 - ii. A description of the claim issue
 - iii. Any relevant correspondence
 - iv. Related photographs (see 10. a)
- d. Once received and evaluated, additional instructions will be provided to further or complete the claim.

- e. For damaged product, Marset may provide replacement components or complete products at our discretion.
- f. For missing product Marset may attempt to locate the product to complete the delivery or provide a replacement.
- g. Note that POs placed by Marset dealers or agents deemed by Marset to be pre-emptive for the purpose of circumventing or accelerating the claims process will be rendered along with the original claim PO ineligible for a return or refund of any kind.

Warranty

- a. Marset fixtures sold on or after January 1, 2025 carry a 5-year warranty under normal use, valid from the date of invoice. Products sold before January 1, 2025 carry a 2-year warranty under normal use, valid from the date of invoice. All Marset fixtures display a code with the manufacturing date found on a sticker marked "OK TEST". Removal of the sticker will void the warranty.
- b. Our warranty liability includes the replacement of defective products or components, excluding third-party light sources.
- c. Cost of installation and/or uninstalling the product and transport fees are not included in this warranty, and are the sole responsibility of the client.
- d. Any modification or alteration of the product by a third party, outside of those shown in official Marset installation instructions, will void the warranty, and may void the UL certification.
- e. For full warranty terms, please contact Marset.

Payment

- a. All orders under normal terms require pre-payment before production, and are not considered placed until full payment or requested deposit has been received. We accept payment via check, ACH, or wire transfer.
 - i. Note for Canadian clients: Payments to Marset of \$20,000 or more from Canadian banks must be made via ACH/Wire Transfer. Checks cannot be accepted.
- b. Orders over \$5,000 or containing ten (10) or more items may require 50% deposit (non-refundable after 48 hours) to begin production, regardless of client credit terms.
- c. Orders cancelled more than 48 hours after placement may be reimbursed, at Marset's discretion, via credit memo, and will include a restocking fee.
- d. The invoice maturity date cannot be altered and any delays will be subject to the relevant administrative and financing expenses. The due date of an invoice cannot be changed by the client in case of a commercial claim, except with written authorization of Marset. Purchased products remain the sole property of Marset until full payment of invoice. This remains in effect regardless of the solvency status of the purchasing company. If purchaser is unable to pay an invoice in full, all unpaid items must be returned to Marset in original working condition.

Payment Continued

- e. Credit Terms: Marset may agree to grant 30-day credit terms up to \$30,000 USD, for clients with whom Marset has a longstanding business relationship. Clients may be required to submit their financial information to Marset's insurer in order for terms to be granted.
- f. For clients with credit terms, production on orders below \$5,000 USD will begin upon receipt of purchase order. Orders above \$5,000 USD or that contain custom items may require 50% deposit regardless of terms.
- g. Marset reserves the right to immediately revoke credit terms for clients with a past-due invoice.

Special requests

- a. All product customizations of any sort must be submitted beforehand and approved in writing by Marset.
- b. Marset reserves the right to request custom 2D/3D drawings of any modifications, and to refuse modifications for which drawings are not submitted.
- c. All sales of custom items will be considered final and no returns will be accepted.
- d. A non-refundable 50% deposit will be required to process custom orders.

Disclaimer

- a. Marset reserves the right to modify any product in order to improve its characteristics, without prior notice.
- b. Marset is not responsible for any misuse or negligence by the client in the handling of the products that results in injury or worse to any persons and/or property.
- c. Marset is not responsible for replacement of items that have been discontinued from Marset's catalogue, including spare or replacement parts for those items.
- d. Placement of an order implies acceptance of this general sales agreement. All disputes will be subject to arbitration in New York (USA).
